Last year we [covered](#) the \$3.3 million seed round for telemedicine startup in the US, which was building out combined psychedelic-assisted therapies and a graph home ketamine therapy – considered a radically new combines music therapies and a data-led, ‘quantified

It’s now raised a \$23 million Series A equity financing founded by Ev Williams, Co-founder of Twitter), which debt financing from Western Technology Investment. lion share for the round was in equity.

The financing follows Nue Life’s November 2021 Nue company’s proprietary technologies serving patients :

NUE Life competes with [Mindbloom](#), as well as [Field](#) actual treatment centers.

The new round of funding will support its new service as the existing locations of Florida, Texas, California,

State. In April, the service will expand to Georgia and additional states are planned by the end of the year.

Juan Pablo Cappello, Nue Life co-founder and CEO said people struggle with mental health worldwide, and the women, veterans, and other folks experiencing symptoms PTSD that have not been helped by traditional treatments.

“We’re thrilled to be a part of Nue Life’s efforts to create health— one focused on healing the root cause of suffering,” co-founder and Managing Director of Obvious Ventures said.
